

Redis Eats Account and Login Help

Overview

This document covers common account and login issues for Redis Eats customers, including password resets, account access problems, and how to update your account information.

Creating an Account

To create a Redis Eats account:

1. Download the Redis Eats app from the App Store or Google Play, or visit rediseats.example.com.
2. Tap Sign Up.
3. Enter your name, email address, and a password.
4. Verify your email address by clicking the link sent to your inbox.
5. Add a delivery address and payment method to start ordering.

You can also sign up using your Google or Apple account.

Logging In

To log in to your Redis Eats account:

1. Open the app or website.
2. Tap Log In.
3. Enter your email address and password.
4. Tap Sign In.

If you signed up with Google or Apple, use the corresponding sign-in button instead.

Resetting Your Password

If you have forgotten your password:

1. On the login screen, tap Forgot Password?
2. Enter the email address associated with your account.
3. Check your inbox for a password reset email from Redis Eats.

4. Click the reset link in the email. The link is valid for 30 minutes.
5. Enter and confirm your new password.
6. Log in with your new password.

If you do not receive the reset email within a few minutes, check your spam or junk folder. If it is still not there, make sure you are using the correct email address for your account.

Account Locked

Your account may be temporarily locked after multiple failed login attempts. If this happens:

- Wait 15 minutes and try again.
 - If you are still unable to log in, use the Forgot Password? flow to reset your credentials.
 - If the issue persists, contact Redis Eats Support.
-

Updating Your Account Information

To update your name, email, phone number, or delivery address:

1. Open the Redis Eats app.
2. Tap your profile icon in the top right corner.
3. Go to Account Settings.
4. Select the field you want to update and make your changes.
5. Save your changes.

Changing your email address will trigger a verification email to your new address. You must verify the new email before the change takes effect.

Updating Payment Methods

To add, remove, or update a payment method:

1. Go to Account Settings > Payment Methods.
2. Tap Add Payment Method to add a new card or payment option.
3. Tap the three-dot menu next to an existing method to edit or remove it.

You must have at least one valid payment method on file to place orders.

Two-Factor Authentication

Redis Eats supports two-factor authentication (2FA) for added account security. To enable 2FA:

1. Go to Account Settings > Security.
2. Tap Enable Two-Factor Authentication.
3. Choose your preferred method: SMS or authenticator app.
4. Follow the prompts to complete setup.

Once enabled, you will be asked to verify your identity each time you log in from a new device.

Deleting Your Account

To permanently delete your Redis Eats account:

1. Go to Account Settings > Privacy.
2. Tap Delete Account.
3. Confirm your decision.

Account deletion is permanent. All order history, saved addresses, and payment methods will be removed. This action cannot be undone.

Contact Support

For account or login issues that are not resolved by this guide, contact Redis Eats Support through the app or at support@rediseats.example.com.
